**2012-2016** Alexandria University, Faculty of Engineering Egypt (**Teaching Assistant**)

**2009-2017** Omran Office for Studies and Design in Alexandria, Junior Architect

My design approach stems from references, combinations and even unusual considerations (architecture and nature, animals, music, to name a few). I am always seeking to achieve the best and unique design. Green buildings design expert and sustainable design manager.

## Experience

### AFM CONSULTANTS CO. Main Office, Al-Madinah Saudi Arabia

#### Position: Chief Design Officer

Coordinate and supervise all technical activities related to architectural and engineering projects, including directing the design team, reviewing drafts and computer prototypes, and approving design changes.

Communicate directly with stakeholders, managers and clients to discuss and organize projects from initial design through construction.

Present design proposals to clients according to deadlines, explaining relevant details, reports, and objectives in a clear and compelling way.

Provide consultations and negotiate with clients during the project development stages.

Coordination and follow-up of engineers in various projects and supervising the output of all projects in the best way

### University of Prince Mugin in Madinah - Saudi Arabia

#### Position: Lecturer in the university

Monitoring academic progress of student advisees regarding passing/failing courses and dropping/adding courses.

Participating in departmental functions, University committees.

Collaborating with Department Chairperson and faculty on curriculum planning & development

### Omran Office for Studies and Design in Alexandria - Egypt

#### Position: Senior Architect

Urban and landscape planner, building designer and interior designer

### Alexandria University, Faculty of Engineering - Egypt

#### Position: Teaching Assistant

Worked as a teaching assistant for the specialized scientific program (SSP) challenging to communicate with students with different levels of education, and different personalities and then dealing with each one with his own mentality. Being prepared before the class in order to be ready for students' questions was challenging too

### Omran Office for Studies and Design in Alexandria - Egypt

#### Position: Junior Architect

Worked as a designer, execution-working drawer, and Interior designer.

Some projects that I worked on are listed below:

King Abdullah Cultural Center- Saudi Arabia (2010).

Raas Soudaa Housing (Residential Complex) - Alexandria (2010)
